SUMMARY

BCA student with hands-on experience building and deploying AI-powered web applications. Built 6+ live products using TypeScript, JavaScript, Next.js, n8n workflows, and Gemini API, including a travel startup (Mapravel) with a Supabase backend. Comfortable with the full deployment cycle from development to production on Vercel. Seeking a software development internship to contribute to real product work.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C, HTML, CSS
Frameworks & Libraries: Next.js, React, Node.js
Databases & Backend: Supabase, REST APIs, n8n Workflow Automation
AI & APIs: Gemini API, Prompt Engineering, API Integrations
Tools & Platforms: Git, GitHub, Vercel, VS Code
Soft Skills: Problem Solving, Self-Directed Learning, Attention to Detail, Adaptability

CERTIFICATIONS

AI Foundations Associate – Oracle
AI Fluency – Anthropic
AI for Everyone – DeepLearning.AI (Coursera)
Introduction to Artificial Intelligence – IBM (Coursera)
Vibe Coding Essentials – Scrimba

PROJECTS

Mapravel | *Next.js, Mapbox API, TypeScript, Supabase, Vercel* | mapravel.vercel.app
– Travel memory platform with an interactive globe interface. Built the entire frontend with Next.js and TypeScript.
– Integrated Supabase for user authentication and data persistence. Deployed and maintained on Vercel.

ResumeDEX | *TypeScript, n8n, Gemini API, Vercel* | resumedex.vercel.app
– AI-powered resume analysis tool that returns structured feedback using a Gemini API backend automated through n8n workflows.

FlydexGPT | *JavaScript, n8n, Gemini API, Vercel* | flydexgpt.vercel.app
– Conversational AI interface for travel-related queries, with n8n handling the backend logic and API calls to Gemini.

Flydex Calories | *JavaScript, n8n, Gemini API, Vercel* | flydex-nutrients-analyzer.vercel.app
– Nutritional analysis tool that uses Gemini API to break down food inputs and return calorie and nutrient data.

EXPERIENCE

Software Developer (Independent) <i>Self-Directed</i>	2023 – Present <i>Remote</i>
– Built and deployed 6 AI-powered web applications from scratch, managing frontend, backend automation, and deployment independently. – Designed n8n-based backend workflows integrating REST APIs and Gemini API with logic-based triggers. – Maintained full Git-based version control and deployment pipeline on GitHub and Vercel across all projects. – Built foundational applications in Python and JavaScript; established consistent Git-based version control habits from the start.	

EDUCATION

Bachelor of Computer Applications (BCA) <i>Integral University</i>	2023 – 2026 <i>Lucknow, India</i>
– Relevant coursework: Data Structures, Algorithms, Software Engineering, Operating Systems, Programming Fundamentals
